INTRODUCTION

De La Salle University is an internationally recognized Catholic university in the Philippines established by the Brothers of the Christian Schools in 1911. Inspired by the charisma of St. John Baptist de La Salle, the University community, together and by association, provides quality human and Christian education by teaching minds, touching hearts, and transforming lives.

Today, De La Salle University (DLSU) is acknowledged as a premier university in the Philippines, serving as a significant resource for the country and the rest of the global society by developing leaders and achievers in business, public service, education, science and technology, and the arts.

THE LASALLIAN CURRICULUM

All DLSU degree programs are modern, future-proof, and rooted in the best traditions of Lasallian education. Every program is different, but all share the following features:

- Programs adopt an outcomes-based education: learning in the classroom is problem-based and research-oriented.
- Programs prepare students for the Fourth Industrial Revolution: These programs are interdisciplinary by design and prioritize critical thinking, communication, creativity, and collaboration.
- Programs create a meaningful and nurturing university experience. With the Global Enrichment Term, students can decide to do longer internships, study overseas, do volunteer work and community engagement, or start ventures.
- Programs provide numerous curricular and extracurricular opportunities for students to learn how to bridge faith and scholarship.
